# Notes

## Arrival Time

Please arrive to Straus Home Ranch at 3:45pm.

## Parking

We have a strict limit to the number of cars allowed on the property, therefore carpooling will be required. We will be reaching out by email to assign carpool groups. Please note that the route to Straus Ranch is very windy, please take caution while driving at night.

## Attire

Somewhere in between semi-formal and dressy casual. The wedding will be taking place in a barn, on gravel and concrete floors. The weather in Tomales Bay is unpredictable to say the least, with a high chance of intermittent rain. We recommend dressing in warm layers and being prepared with appropriate outerwear.

## Cell Service / Directions

Cellular service is very limited in the Tomales Bay area. Reception is strongest in the town of Point Reyes Station. Be prepared by printing directions, or setting your navigation to the desired destination before driving. Straus Ranch has provided directions here.

## Registry

We have decided to avoid a traditional registry and are asking our guests to contribute to our honeymoon, if so inclined (It's safe, secure, and easy).

# Additional things to do

## Beaches

### North Beach

North Beach at Point Reyes Beach is the northern access point to an 11-mile long beach on the west side of Point Reyes National Seashore.

### Limantour Beach

Limantour Beach is a south-facing beach on a sand spit between Drakes Bay and the Limantour Estero estuary.

## Hikes

### Tomales Point Trail

This open trail through the Tule Elk Reserve offers spectacular views of the Pacific Ocean and is a prime wildlife viewing trail. The trail to Windy Gap is relatively level.

### Earthquake Trail

A walk rather than hike. A short paved loop explores the San Andreas Fault Zone. Interpretive signs provide information about the San Andreas Fault, the 1906 earthquake, and the geology of the area.

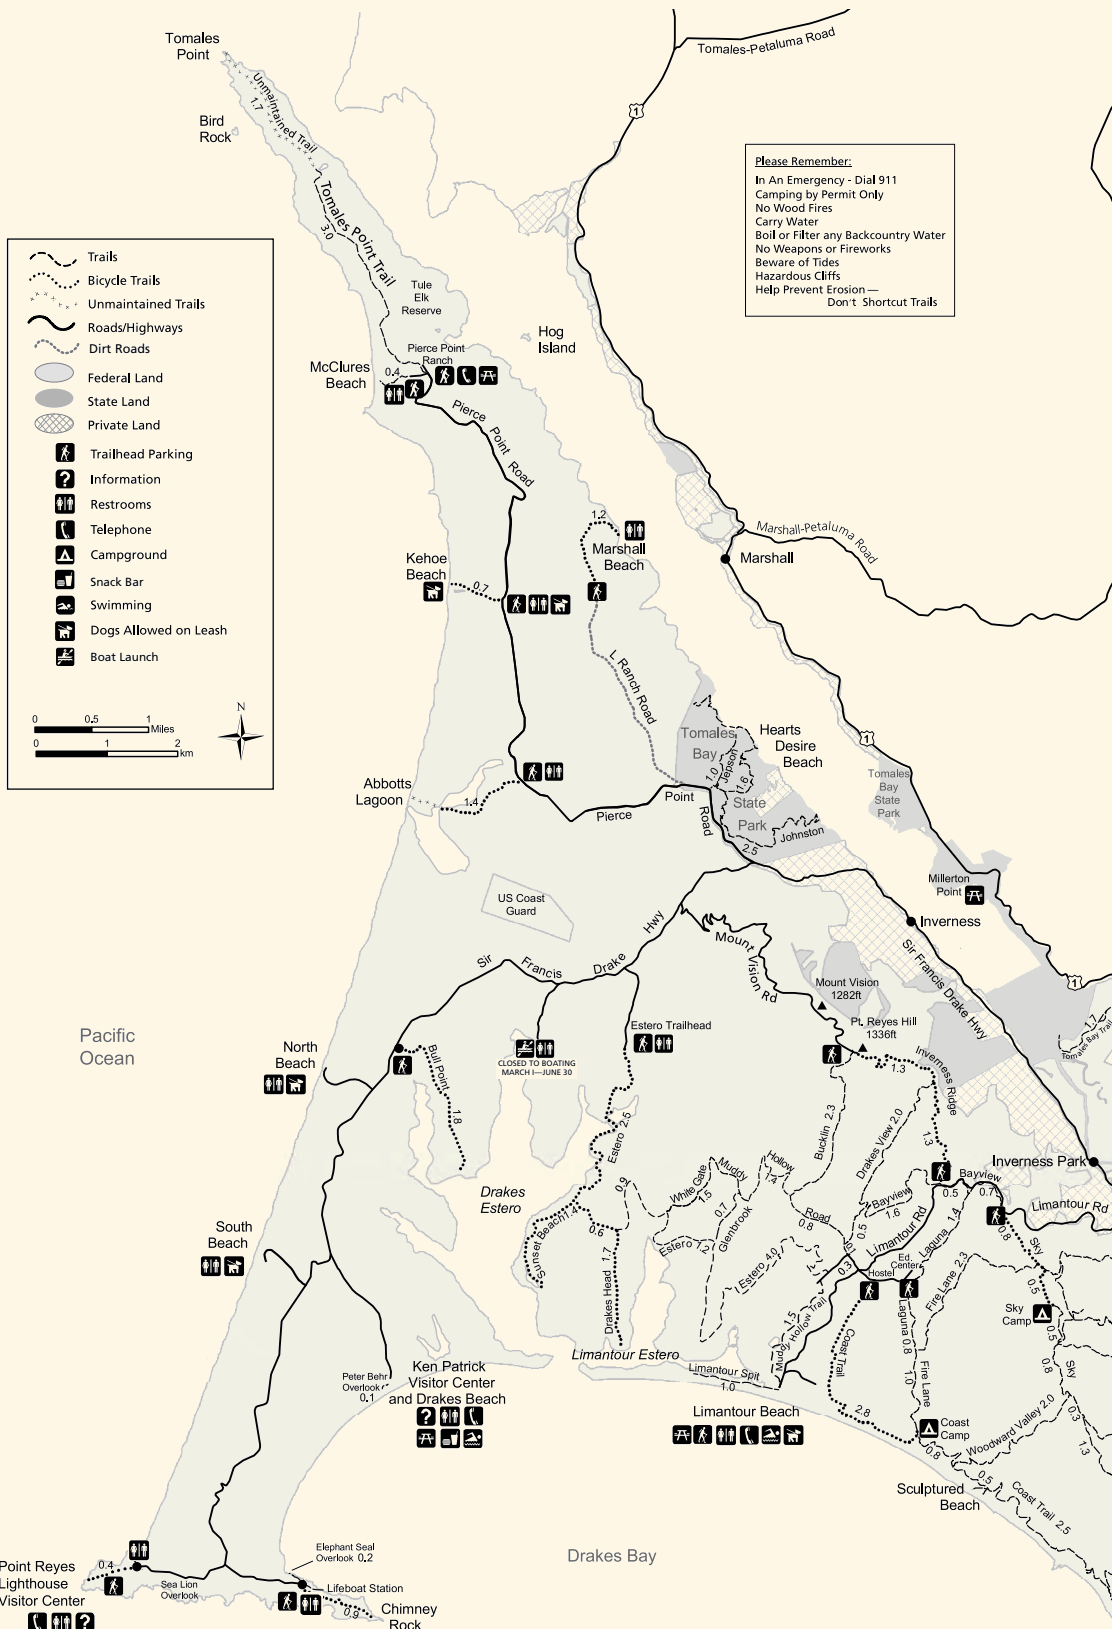

### Bayview or Sky Trail

Start at the Sky Trailhead and wander through dense Bishop Pines along the Inverness ridge. Travel a gentle grade down the ridgeline until a steeper section through a hairpin switchback brings you down to the valley floor.

### Abbott's Lagoon

An easy stroll through open grasslands and coastal scrub to a bridge crossing the short stream connecting a couple of the lagoons, with good spring wildflowers and excellent birdwatching, especially in the fall and winter.
